

[2026 Spring] p -adic Hodge Theory Seminar

p -adic Hodge theory & Fargues–Fontaine curve

Overview

- **Time:** Monday 1-4 PM
- **Topics**
 - Introductory p -adic Hodge theory
 - Integral p -adic Hodge theory
 - The Fargues–Fontaine curve
- **References**
 - Hong. *Lecture notes on p -adic Hodge theory*.
 - Brinon & Conrad. *CMI Summer School Notes on p -adic Hodge Theory*.
 - Kisin. Crystalline representations and F -crystals.

Schedule

Week	Date	Topic
1	2026-03-02	<i>No meeting</i>
2	2026-03-09	Introduction
3	2026-03-16	Finite flat group schemes
4	2026-03-23	p -divisible groups 1
5	2026-03-30	p -divisible groups 2 / Period rings and functors 1
6	2026-04-06	Period rings and functors 2
7	2026-04-13	Period rings and functors 3
8	2026-04-20	<i>No meeting (midterm exam)</i>
9	2026-04-27	Period rings and functors 4
10	2026-05-04	Integral p -adic Hodge theory 1
11	2026-05-11	Integral p -adic Hodge theory 2
12	2026-05-18	Integral p -adic Hodge theory 3
13	2026-05-25	<i>No meeting (Holiday)</i>
14	2026-06-01	The Fargues–Fontaine curve
15	2026-06-08	<i>Cancelled</i>
16	2026-06-15	<i>No meeting (final exam)</i>
